## REPLENISH+

### Immune Modulator and Booster

An adjunctive immune-support capsule made with organic moringa oleifera powder and SelenoExcell selenium for adults and older children.

#### PURPOSE

Supports immune function and antioxidant enzyme production from 12 years onward.

#### Key Benefits

- Supports the body's antioxidant enzyme activity
- Formulated with organic moringa oleifera powder
- Contains FDA-GRAS approved SelenoExcell selenium
- Simple one-capsule daily regimen

#### Composition & Dosage

Ingredients	Each capsule contains 500mg moringa powder and 200mcg selenium.
Dosage	One capsule a day.
Certifications	<a href="#">National Drug Authority (Notified)</a>

## REPLENISH+-Junior

### Children's Immune Booster

A herbal multivitamin chewable tablet developed to support children's immunity, healthy growth, and everyday wellbeing.

#### PURPOSE

Designed to naturally build immunity in children while promoting healthy growth and daily nutritional support.

#### Key Benefits

- Supports glutathione peroxidase production in children
- Promotes healthy growth and development
- Supports healthy lungs, bones, and skin wellbeing
- Provides child-friendly chewable daily nutrition support

#### Composition & Dosage

Ingredients	Each chewable tablet contains 18 ingredients including 10 vitamins, 7 minerals, FDA-GRAS approved SelenoExcell selenium, and moringa oleifera.
Dosage	One chewable tablet a day.
Certifications	<a href="#">National Drug Authority (Notified)</a>

# REPLENISH+-Mama Care

## For Pregnant and Lactating Mothers

A natural herbal multivitamin designed to support immunity and nutritional wellbeing during pregnancy and lactation.

### PURPOSE

Provides immune and nutritional support for pregnant and lactating mothers while promoting maternal wellbeing and healthy baby growth.

### Key Benefits

- Supports antioxidant enzyme production during pregnancy and lactation
- Helps strengthen daily nutritional intake
- Developed for maternal immune support
- Supports the health of both mother and growing baby

### Composition & Dosage

Ingredients	Each capsule is composed of 15 ingredients including 6 vitamins, 8 minerals, FDA-GRAS approved SelenoExcell selenium, and moringa oleifera.
Dosage	One capsule twice a day.
Certifications	<a href="#">National Drug Authority (Notified)</a>

---

## REPLENISH+ Ready to Use Therapeutic Food

### RUTF

A fortified therapeutic spread sachet developed for children aged 6 to 59 months with severe acute malnutrition and no medical complications.

#### PURPOSE

Supports the treatment of severe acute malnutrition in children aged 6 to 59 months who do not present medical complications.

#### Key Benefits

- Designed for treatment of severe acute malnutrition
- Ready-to-use sachet format for clinical and community programs
- Provides high-energy fortified nutritional support
- Suitable for field distribution and program use

#### Composition & Dosage

Ingredients	Peanuts, sugar, dairy products, non-hydrogenated vegetable oil, maltodextrin, vitamin and mineral complex, and emulsifier.
Dosage	135-220 kcal/kg/day per child for 4-8 weeks.
Certifications	<a href="#">National Drug Authority</a> • <a href="#">Uganda National Bureau of Standards</a>

## REPLENISH+ Ready to Use Supplementary Food

### RUSF

A ready-to-use supplementary food in the Doctor's Choice nutrition range, designed for supplementary feeding programs and community nutrition support.

#### PURPOSE

Provides supplementary nutrition support in settings where a ready-to-use food product is required.

#### Key Benefits

- Ready-to-use format for supplementary nutrition support
- Part of the Doctor's Choice therapeutic nutrition range
- Suitable for program and procurement discussions
- Locally manufactured for regional supply

#### Composition & Dosage

Ingredients	Detailed composition information is available directly from Doctor's Choice on request.
Dosage	Use according to the product pack instructions or program guidance.
Certifications	<a href="#">National Drug Authority</a> • <a href="#">Uganda National Bureau of Standards</a>

## REPLENISH+ Composite Flour

### Composite Flour

A fortified flour blend developed to provide everyday nutrition support for children and adults.

#### PURPOSE

Provides daily nutrition support for children and adults through a fortified flour blend.

#### Key Benefits

- Supports everyday nutrition with fortified ingredients
- Combines maize, soy, moringa, and selenium
- Designed for both child and adult nutrition support
- Extends the Doctor's Choice nutrition portfolio beyond capsules and tablets

#### Composition & Dosage

Ingredients	Each pack contains maize, soy, moringa, and SelenoExcell selenium.
Dosage	Not applicable.
Certifications	<a href="#">Uganda National Bureau of Standards</a>

## REPLENISH+ Corn Soy Blended Flour (CSB+)

### Corn Soy Blended Flour

A corn and soy blended flour fortified to support broader nutrition programs and everyday household use.

#### PURPOSE

Provides fortified blended nutrition support for households and nutrition programs.

#### Key Benefits

- Fortified corn and soy blended food
- Suitable for household and program-level nutrition support
- Locally manufactured in Uganda
- Complements the wider Doctor's Choice fortified flour portfolio

#### Composition & Dosage

Ingredients	Maize and soy base with added micronutrients. Full composition available on request.
Dosage	Use as part of regular meals according to pack guidance.
Certifications	<a href="#">Uganda National Bureau of Standards</a>
